## On-Page SEO Results

### Your On-Page SEO could be better

Your page has some level of On-Page SEO optimization but could be improved further. On-Page SEO is important to ensure Search Engines can understand your content appropriately and help it rank for relevant keywords. You should ensure that HTML Tag Content is completed correctly and align text content to target keywords.

#### Title Tag

You have a title tag of optimal length (between 10 and 70 characters).

Lead Hub | Free Outgoing Call Management

Length : 40

#### Meta Description Tag

Your page has a meta description tag however, your meta description should ideally be between 70 and 160 characters (including spaces).

## Hreflang Usage

Your page is not making use of Hreflang attributes.

## Language

Your page is not using the lang attribute in it's HTML tag.

The lang attribute tells browsers and search engines the intended language of your page and is strongly recommended to avoid misinterpretation and as part of accessibility guidelines.

## H1 Header Tag Usage

Your page does not have an H1 Header Tag.

The H1 Header Tag is an important way of signaling to search engines what your content is about, and subsequently the keywords it should rank for.

## H2-H6 Header Tag Usage

Your page is not making use of multiple levels of Header Tags.

HTML header tags are an important way of signaling to search engines the important content topics of your page, and subsequently the keywords it should rank for.

| Header Tag | Frequency |
|------------|-----------|
| H2         | 0         |
| H3         | 0         |
| H4         | 0         |
| H5         | 0         |
| H6         | 0         |

## Keyword Consistency

Your page's main keywords are not distributed well across the important HTML tags.

Your page content should be focused around particular keywords you would like to rank for. Ideally these keywords should also be distributed across tags such as the title, meta and header tags.

## Amount of Content

Your page has a low volume of text content which search engines can interpret as 'thin content'.

Word Count: 1

It has been well researched that higher text content volumes are related to better ranking ability in general.

## Image Alt Attributes

You have images on your page that are missing Alt attributes.

We found 1 images on your page and 1 of them are missing the attribute.

Alt attributes are an often overlooked and simple way to signal to Search Engines what an image is about, and help it rank in image search results.
